XPAN *Natura*

PROMOCLAD introduces a selection of natural finishes called NATURA to be applied on its XPAN extruded aluminium panels.

NATURA is a new range of Super Durable Powder Coatings that follows the new architectural trends.

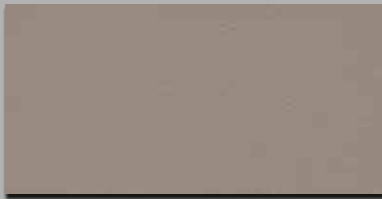

These finishes offer superior exterior durability and are ideal for buildings where aesthetic stability is essential and for any application in high UV level environments.

NATURA range meets the requirements of Qualicoat Class II, GSB Master, BS EN 12206 and AAMA 2604.
